

Oberseminar p-adische Arithmetik
Dienstags, 16:00 Uhr - 18:00 Uhr, SR1C

Datum	Sprecher	Titel
17.04.2018		Programmdiskussion
08.05.2018*	T. Melkert	An overview of Beilinson-Bernstein localization
15.05.2018	M. Weirich	Separating the Lie algebra from the group inside the locally analytic distribution algebra, I
29.05.2018*	M. Frantzen	Separating the Lie algebra from the group inside the locally analytic distribution algebra, II
29.05.2018	T. Csige	Separating the Lie algebra from the group inside the locally analytic distribution algebra, III
05.06.2018	Mark Feldmann	Coadmissible equivariant D-modules, I
12.06.2018	Verena Edenfeld	Coadmissible equivariant D-modules, II
19.06.2018*	Marius Kley	Coadmissible equivariant D-modules, III
19.06.2018	Shanxiao Huang	Main properties and proofs, I
03.07.2018	Federico Calderon	Main properties and proofs, II
10.07.2018*	Eugen Hellmann	Main properties and proofs, III
10.07.2018	Peter Schneider	Localization for $D(G, K)$, I

* geänderte Uhrzeit: 10:00 - 12:00 Uhr
