

Oberseminar p-adische Arithmetik

Dienstag, 16:15 Uhr

SoSe 2021

Datum	Sprecher	Titel
13.04.2021	Claudius Heyer	Organizational meeting
20.04.2021	Verena Edenfeld	Smooth mod-p representations and the mod-p Satake transform
04.05.2021	Maximilian Langner	Various lemmas
11.05.2021	Martina Fruttidoro	Compatibilities between Hecke actions
18.05.2021	Anastasia Prokudina	Comparison of compact induction with parabolic induction
01.06.2021*	Maxim Melnik	Hecke eigenvalues and supersingularity
08.06.2021	Shanxiao Huang	Change of weight
15.06.2021	Luisa Meinke	Generalized Steinberg representations
22.06.2021*	Emanuele Bodon	Irreducibility of parabolic inductions
29.06.2021	Peter Schneider	The right adjoint of parabolic induction
06.07.2021	Robin Bartlett	Classification of irreducible representations
13.07.2021	Eugen Hellmann	The submodule structure of parabolically induced representations
20.07.2021	Claudius Heyer	Survey: Classification for general reductive groups
