

Mittagsseminar zur Arithmetik
Dienstags, 10:15 Uhr - 11:45 Uhr
SoSe 2021

Datum	Sprecher	Titel
13.04.2021	Zhixiang Wu (Univ. Paris-Sud)	Companion forms and partially de Rham cycles on the trianguline variety
20.04.2021	Arthur Bartels (Münster)	K-Theorie of Hecke algebras
27.04.2021	Yukako Kezuka (MPI Bonn)	A study of the conjecture of Birch and Swinnerton-Dyer for the elliptic curves $x^3+y^3=N$
04.05.2021	Sergei Iakovenko (Bonn)	Representations of the Kottwitz gerbes
11.05.2021	Peter Schneider (Münster)	The Bernstein center of smooth representations in characteristic p
18.05.2021	Pol van Hoften (King's College London)	Irreducible components of Igusa varieties
01.06.2021*	Stefano Morra 	Moduli of Fontaine-Laffaille modules and local-global compatibility mod p , I
08.06.2021	Stefano Morra	Moduli of Fontaine-Laffaille modules and local-global compatibility mod p , II
15.06.2021	Christopher Deninger (Münster)	Dynamical systems for schemes and the Fontaine - Fargues curve
22.06.2021 *	Alexander Bertolini Meli (Michigan)	On the cohomology of Rapoport-Zink spaces for unitary similitude groups
29.06.2021	Jack Shotton	tba
06.07.2021	Jaclyn Lang (Oxford)	Big images of two-dimensional pseudorepresentations
13.07.2021	Martina Fruttidoro (Münster)	Non-regular trianguline representations in dimension 2 and 3

* Achtung: geänderte Uhrzeit: 16:15 - 17:45 Uhr
