List of Publications
Caterina Ida Zeppieri

Published papers:

(3) A. Braides, C. I. Zeppieri, Multiscale analysis of a prototypical model for the interaction between microstructure and surface energy, *Interfaces Free Bound.*, Vol. 11, No. 1, pp. 61-118 (2009);

Submitted papers:

(12) M. Barchiesi, G. Lazzaroni, C. I. Zeppieri, A bridging mechanism in the homogenisation of brittle composites with soft inclusions (2015);
(13) M. Burger, T. Esposito, C. I. Zeppieri, Second-order edge-penalization in the Ambrosio-Tortorelli functional (2015);
(14) C. I. Zeppieri, Stochastic homogenisation of singularly perturbed integral functionals (2015);

Other publications:

(16) C. I. Zeppieri, Multi-scale analysis via Γ-convergence, PhD Thesis (2007);
