## ontos mathematical logic

### Information for Authors

Edited by

Wolfram Pohlers (Münster), Thomas Scanlon (Berkeley), Ernest Schimmerling (Carnegie Mellon Univ.), Ralf Schindler (Münster), Helmut Schwichtenberg (Munich)

During the last decades, mathematical logic has developed into a technically quite sophisticated area of mathematics. Nevertheless, inspirations from philosophy and computer science are ubiquitous. The main fields of mathematical logic are computability theory, model theory, proof theory, and set theory. In this series it will be published proceedings volumes as well as monographs written by leading researchers in mathematical logic.

---

 Authors who wish to publish in the series ontos mathematical logic should send the manuscript as a pdf-file to the publisher or to the editors. All contributions to the series will be peer reviewed. If a manuscript is accepted for publication, the author (or editor) should send a pdf-file according to the publisher's style sheet.

 The books of this new series will be published in hardcover (except of student handbooks) and will be available for at least ten years. The books of this series will be distributed in Middle Europe by ontos verlag, in U.K. and some North and South European countries by Gazelle Books, Lancaster (U.K.) and in North and South America by Transaction Publishers, New Brunswick (Rutgers University) NJ (U.S.A.).

 The book price depends on the number of pages. A book with 250 pages will cost approximately € 72,00 (US\$ 72,00). Student handbooks etc. will be published in paperback at a price lower than € 30,00.

 The originator will receive 10 free copies of his book and 25 – 30% discount on all books published by ontos verlag.

All books of this series will be also available as eBooks at a price between € 20,00 and € 29,50.

 The author or the editor of a volume receives a royalty for his publication between 5% and 10% of the net income.
